Multidisciplinary Projects  
in an International Context

Co-funded by the  
Erasmus+ Programme  
of the European Union

[www.mupic.eu](http://www.mupic.eu)

Project number: 2018-1-CZ01-KA203-048151  
This project has been funded with support  
from the European Commission.

## ABOUT MUPIC

The project is focused on the support of international students in the acquisition of technical and personal competences, using innovative online methods in multidisciplinary teams. Participant students will be given some assignments from external companies collaborating with the project and will have to find or create a final product/solution, working together in virtual and multicultural environments. Each team will apply agile methods in project management as well as share and create knowledge through a collaborative strategy.

## EXPECTED RESULTS

MUPIC project aims to create and test a learning model in which international and multidisciplinary teams acquire those generic skills needed (communication, creativity, leadership and ethic commitment, among others). Students from several European high education institutions will be involved in the project, providing a unique opportunity to work in multicultural teams.

## WHY SHOULD I APPLY?

- To work in multidisciplinary international teams.
- To improve / gain intercultural competences.
- To improve language skills.
- To learn how to work in virtual teams, using online and offline communication.
- To learn about project management and engineering and industrial design.
- To acquire ICT skills.
- To acquire greater understanding of social, ethic, linguistic and cultural diversity.

## MODULES

- M1 Language and intercultural communication
- M2 Online communication and virtual teams
- M3 Engineering Design
- M4 Project management

## ERASMUS+

Erasmus+ is the EU's programme to support education, training, youth and sport in Europe.

## CITY OF PILSEN

Pilsen is the fourth largest city in the Czech Republic. It is located in western Bohemia. It is an important industrial, commercial, cultural, and administrative centre. The city was founded on the confluence of four rivers – Uhlava, Uslava, Radbuza and Mze – by the Czech king Wenceslas II in 1295. Situated on the crossroads of two important trade routes and close to Prague, Pilsen experienced an immediate rapid growth. Nowadays, the Pilsen metropolitan area covers 125 square kilometres. Its population is 165, 000 inhabitants. The rich cultural and economic standard of life in Pilsen is particularly enhanced by its heritage. In 1989, the ancient town centre was declared a historical landmark to be carefully preserved. The rich architectural gems here include Gothic St. Bartholomew's Cathedral, Renaissance City Hall, Baroque reconstruction of the Archdeacon's house and Franciscan Monastery, and the recently re-opened Great Synagogue of Pilsen.
